Me:

Full stack web developer, with 3 years professional experience working for global agencies based in London on a variety of clients like Santander, Heineken and Dior.

This combined a variety of BAU work with a series of "one off" applications created on tight fixed deadlines. This work included building mortgage and loan calculators using an API call to a server that I had set up to store and parse the rate data, and served in the front end with angular. I have also built, and hosted, full CMS sites for a number of clients to help self-manage their online presence.

As a person, I am always keen to enhance skillset. I enjoy problem solving and know there is always a fitting solution out there somewhere. I admire the beauty of well written code, and write to the highest standards myself wherever possible. Along with scripted languages, a respect for cultures and their boundaries, a knowledge of geopolitical, and ideological history, as well as a basic grasp of a number of spoken languages, would make me a multicultural element to any multinational company.

### Relevant Skills:

#### Backend

- Vanilla PHP
- OOP PHP (to PSR standards)
- Laravel 4 or 5,
- CodeIgniter
- Silex
- MYSQL
- SQLITE
- RESTFUL architecture.

#### Frontend

- HTML 4/5
- CSS 2/3 (cross browser and fully responsive)
- LESS & SCSS
- compass
- OOP JavaScript
- AngularJS
- jQuery
- RaphaelJS
- RequireJS
- Greensock
- Grunt
- APIs inc. Yammer, Googlemaps, Leap Motion
- Mailchimp.

#### System Administration

- UNIX
- NPM
- creating LAMP stacks
- managing Linux servers.
- Experience setting up hosting and building linux boxes through the terminal
- AWS
- maintaining GIT repos served to multiple devs simultaneously
- Tower
- SourceTree
- BitBucket
- GitHub
- Jenkins

#### Other

- JAVA OOP, vanilla
- jMonkeyEngine
- Unity
- Processing
- Photoshop
- InDesign
- Illustrator
- Arduino

#### Text Editors

- PhpStorm
- Sublime Text
- NetBeans
- Eclipse
- Dreamweaver.

### Work Experience:

#### 2012 - 2015 : WPP (Hogarth Worldwide): QC Tester, Junior Web Developer.

Initial work as a QC tester ensuring web and mobile applications were built to high standards.

Trained a team of testers and rolled a series of standardised processes to hubs across the world, before being promoted to a development role.

As a Junior Developer, I worked on a variety of projects for the likes of Santander, Pfizer, Nike, Dior, Betfair, BAT and HSBC.

#### 2010 - 2012 : (Part Time) Annie's Kitchen Falmouth

Involved with face-to-face communication, ability to work under pressure and remain calm, where required taking responsibility for the store in the managers absence.

#### 2007 - 2009: Dextra Lighting PLC - Lighting Design Engineer

Working in a small team to develop commercial and industrial lighting applications for various contracts. using CAD to update architects designs, and provide technical support during both the planning and installation period.

### Education:

#### 2009 - 2012 2:1 with honours - BA(Hons) Digital Media - University College Falmouth

Course Included: Analysing current media trends and predicting future movements, as well as initially developing multimedia packages for clients, and new media projects before specialising in a field within Digital Media, namely for me, Interactive design/development. This gave me specific technical skills, as well as a business, historical, psychological and philosophical understanding of the industry.

#### 2007 A levels in Maths, Physics, and Media Studies with an AS Level in Product Design

#### 2005 GCSE's 10 A\* - C

### Hobbies & Interests:

My life is a blend of both outdoor and indoor pursuits, experiencing new things, and learning about new cultures and thoughts. I like to cycle, and enjoy sporting events. At home, I like to learn, and to try out new code. I enjoy cooking, experimenting with new flavours that I have discovered on my travels and fusing them with what I already know.
